PROFILE

Aspiring web developer and BCA third-year student, eager to contribute to real-world projects through an internship or entry-level role, while continuing to learn and grow in front-end and full-stack development.

EDUCATION

Bachelor of Computer Applications , Arka Jain University	2023 - 2026
Grade:	8.80 GPA

SKILLS

Technical skills	React, Node.js, HTML, CSS, Java, JavaScript, Python
Soft Skills	Leadership, Communication, Teamwork, Problem solving.

EXPERIENCE

Intern <i>Tata Steel</i>	June 2025 - July 2025
------------------------------------	-----------------------

- Developed a Streamlit app using LangChain and OpenAI for natural language data queries.
- Retrieval of real-time production data via chatbot interface.
- Delivered a functional user interface with real-time data access and smooth user interaction.

Intern <i>ShadowFox</i>	July 2025 - Aug 2025
-----------------------------------	----------------------

- Built a responsive e-commerce website using HTML, CSS, and JavaScript
- Implemented dynamic product pages, cart functionality, and smooth navigation
- Focused on clean UI design and mobile-friendly layout for enhanced user experience

PROJECTS

DataChatApp - AI-Powered Data Query Tool - Created an AI-powered data chatbot using Streamlit, LangChain, and OpenAI, enabling users to query structured production data using natural language with ease. Designed a smart, conversational interface that dynamically retrieves relevant information and presents it in a clean, user-friendly format. The application combines real-time data access with an intuitive user experience, effectively showcasing the real-world potential of AI in business data exploration. [\(Github\)](#)

Shoplane - Responsive E-commerce Website Developed a responsive, multi-page e-commerce website using HTML, CSS, and JavaScript, featuring product listings, category pages, and a functional cart layout. Focused on creating a visually appealing, mobile-friendly user interface with smooth navigation and consistent styling across pages. Implemented a clean code structure and organized components to reflect a prototype of a real-world shopping platform. [\(Github\)](#)

CERTIFICATIONS

- Machine Learning Certificate – Completed IBM Machine Learning course, gained hands-on experience with key ML algorithms and model building - Jul '25 - [\(Link\)](#)
- Hackathon Participation Certificate – Built CyberReportShield, an online FIR filing and tracking system, during a national-level hackathon – Apr '25 - [\(Link\)](#)
- An Introduction to Programming the Internet of Things (IOT) by University of California– Feb '25 - [\(Link\)](#)
